

**REMARKS**

Reconsideration is requested.

The telephonic interview with the Examiner on May 18, 2005, regarding the attached "Failure to Acceptably Respond to Notice of Non-Compliant Amendment" is acknowledged, with appreciation.

The specification has been amended to include the paragraphs included with the originally-filed application as possibly un-numbered pages attached after the Abstract. The undersigned is not able to review the USPTO IFW as the Patent Office has not yet entered the undersigned's Customer Number, as requested by the undersigned's submission of a Correspondence Address Indication Form on June 4, 2003 and April 29, 2005. The Examiner has suggested the above amendment to the specification to include the subject matter of the attachment in to the specification after the Summary of the invention.

The above-presented claims are the same as filed with the Amendment of January 12, 2005. The above listing of the claims is re-submitted as suggested by the Examiner during a teleconference with the undersigned on May 18, 2005.

The Examiner is requested to confirm that the Sequence Listing filed January 12, 2005 has been entered.

The Examiner is requested to contact the undersigned in the event anything further is required in response to the Office Action of April 22, 2005 and/or the attached "Failure to Acceptably Respond to Notice of Non-Compliant Amendment."

An early and favorable Action on the merits is requested.
